Participants will both give and receive treatments.

## Advanced Seminars

# Chiropractic Cervical & Lumbar/Sacral Methodology

This 6 hour chiropractic seminar empowers and employs advanced “hands-on” pain and soft-tissue release methodology called **Phasing with Active Isolated Release™**. Johnson has integrated the techniques of the top

experts including; John Barnes, Robert King, James Waslaski, Pam Latterell and Sr. Rosalind into a repeatable methodology. Dr. Stockton enhances the methodology with 25 years of experience in advanced chiropractic techniques. This methodology can be integrated immediately into your practice and complements all existing techniques, treatments & tools.

“I have used deep-tissue work in my practice for the last eight years with pretty good results. Now I use Phasing with Active Isolated Release with incredible results. I can even see improvements in my chronic pain patients. I have abandoned my old soft-tissue routines and now use Phasing with Active Isolated Release.”

**- Dr. David Dow, D.C.**
